FISH MASKS

The Fish-Mask is a weightless and clear that provides a clean, simple, and effective alternative to creating heads with epoxies. A realistic baitfish profile and the ability to take on the color of body materials make it a versatile platform for tying a wide variety of weightless streamer patterns. The 8 sizes in the Fish-Mask range are designed to exactly fit the 8 sizes of Living Eyes (#4 Fish-Mask uses 4 mm Living Eyes, a #5 Fish-Mask uses 5 mm Living Eyes, etc.)

MONOFILAMENT THREAD FINE

This special nylon monofilament thread is great for any translucent fly pattern. Seems to disappear under head cement or epoxy 100 Yard Spools

- 87142 FINE CLEAR .006
- 87140 ULTRA FINE CLEAR .004

SPIDERWEB THREAD WHITE

Used mainly on midges and very small flies, disappears into dubbing material, a favourite with realistic fly tiers. 30 Denier Nylon - 100 yard spools

- SPIDERWEB
- 87144 THREAD WHITE

SYBAI FLAT WIRE NEW

This exceptional product enables a whole new range of fly-tying possibilities. The main advantage over a conventional round wire is the surface provides a more effective reflective surface, and the wire also has a little more strength.

When used in ribbing the body, it cuts less into body/dubbing, which is enhances the ribbing effect even more.

Flat wire therefore combines the effect of the tinsel and the strength of the wire!

We offer a total of 4 variations, each in a number of colours - it can be used for tying of all types of flies from micro nymphs to really big streamers
